CATALOG OF MISSOURI GOOD FOR TOKENS by Bruce W. Smith

Notes:

- 1) More than one style of food stamp tokens may exist for one merchant. The IGA stores in Stevens Point, WI issued seven different series of tokens. Also, a full set might not exist of a second style of tokens. The merchant might have needed to reorder only one denomination, and thus a second style might consist of only one value. Still later, the store might have needed to reorder a whole set of values. This third set might be yet another style and would then exist as a set of five. These sets of five values were issued after the 50 cent food stamp was discontinued -- about 1970. Before this, sets of four tokens, lacking the 50 cent value, were used. Since the food stamp token system was discontinued in 1979 (due to a change in the law which allowed merchants to give real money in change up to one dollar), the 5 piece sets of food stamp tokens were only used in the 1970's.
- 2) Shape of token is assumed to be round unless otherwise stated. The edge is assumed to be plain unless otherwise stated.

Ewing were partners in a grocery store here in 1885. From 1885 to 1893, J. E. Williams & Company ran the grocery. In 1887, directories indicate that the store was run by James E. Williams and Mrs. Hetty Williams. In 1900, Williams Brothers were listed as grocers and dealers in queensware and hardware. J. E. Williams is again listed as a grocery from 1904 to 1918, and also a dealer in hardware and crockery 1914-1918. In earlier days, Z. J. Williams operated a grocery store here in 1882, and in 1883, Zibeon G. Williams (same person ?) was listed as a grocer. Missouri Journal of Numismatics Volume 14 (1989).

4. same but TWENTY FIVE CENTS yellow

5. same but FIFTY CENTS blue

6. same but ONE DOLLAR white

Note: This set has been published as being from the Civil War period, but this is incorrect. The set was issued in the 1890's. Fleer & Langenberg ran a lumber business and general store, and are listed in the 1891 Polk Missouri state gazetteer. The three story building which housed the Langenberg family and their store, built in 1858, is still standing and is now occupied by an antique shop. A 3 cent is also said to exist, but this has probably been confused with the 2 cent. The set was printed in St. Louis by George Barnard & Co. whose name appears at the bottom. Paper tickets exist (without printed value), used by Langenberg operating alone in the 1910's to pay for railroad ties rafted down river to his location. The Fleer partner may have been J. F. Fleer, who ran a lumber business at the nearby town of Belle, MO in 1904. Trantow MO 487A.

Note: The Star Grocery was operated by the Clay Brothers in 1909. The attribution of this token to Frankclay was based on information provided by Charles Littlefield and the fact that two specimens have been found in eastern Missouri. Another Star Grocery existed in St. Louis. Adolph Mery, a dealer in real estate in 1907, entered the grocery business at 1809 S. 14th street in 1908. In 1909 the name Star Grocery was introduced. In 1916 the grocery was acquired by Louis A. Uhri, who dropped the Star Grocery name by 1918. Uhri remained in business at 1809 S. 14th until 1933. Missouri Journal of Numismatics Volume 14 (1989).

A. Himmel's Department Store

1. Obv: HIMMEL'S DEPT STORE / 25 / QUALITY FIRST

The records of the Ingle-Schierloh Company record that 1,000 tokens were struck for this store in 1918, but none were known to exist until 1993. The piece listed above is the only one known to exist. Louis Himmel (not Himmela) operated a general store here from about 1910 to 1927. During 1929-1930 the store was operated by Mrs. D. Himmel and during 1931 by Demarius Himmel; probably the same person. A typographical error in the February 1972 TAMS Journal gave the name of this store as Himmela Department Store. Rev: PEOPLES OUTFITTING STORE / INDEPENDENCE, MO

brass 28mm round. Reeded edge. Miller 40. Wright 2A.

Baker 507.

Note: The initials on the token are in the wrong order, and should be A. M. for Abraham M. Abrahams (the M possibly standing for Moses). Abrahams moved to Independence from New York sometime between 1846 and 1850. In 1854 he declared bankruptcy and some time later, moved to St. Louis where he operated the Eagle Loan Office in 1867. Abrahams had another store for which there is an identical token with WESTPORT, MO in place of Independence. It is believed that the latter is a die cutter's error, and that the store was really at Weston, not Westport. These tokens were issued about 1850. The Independence token is very rare. Rulau values it at \$700 in VF in the 1997 edition of his catalog. Robert D. Leonard published an article about Abrahams and his tokens. According to his census, at least 10 pieces are known from the Independence store.

x. Schuyler Lowe

There is a counterstamp reading: S. LOWE INDP. MO known on an 1834 Danish Rigsdaler. Lowe (1834 - ?) operated a drug store in Independence from 1860 until 1861, when he enlisted in the Missouri State Guards (Missouri's confederate militia). Since the counterstamp is so far unique, because the coin bears the date of his birth, and because the Danish rigsdaler was not in common use in the United States, this was probably a personal piece rather than a token. Rulau MO 110; Brunk 25145. See Missouri Journal of Numismatics Volume 7 (1982).

Note: The bank opened for business 1 October 1890 and was absorbed by the First National Bank of Joplin on 31 December 1952. According to an article in the April 1923 Numismatist, a Secret Service agent visiting Joplin in 1922 noted that strawberry tokens issued by one or more banks in the area, were being used as cash in various stores in town. The agent reported this to the U.S. Treasury Department, which then forbid the issue of tokens by banks there. The tokens listed here may be the ones seen by the agent. The Joplin National Bank tokens are rare today.

Note: J. H. Elfrink is listed in the 1922 Dun directory as operating a general store at Leopold, MO. Rulau says J. Herman Elfrink ran a general store at Leopold, MO (he says in Boone county) in 1918. In 1902 and 1914 Herman Elfrink is listed as being in the saddle and harness business at Leopold. In 1927 the general store business was called Elfrink & Son.

silver round

Note: Rulau lists this as a counterstamp (with raised letters) on a 1936 Hungarian 2 pengo silver coin. Since the value of the silver was more than one cent even then, this piece is a mystery. The most likely explanation is that this is only a die trial for two tokens which have not yet been discovered. The address on the reverse, however, is a St. Louis address. Joseph E. Raffo operated a saloon in St. Louis in 1914. In 1922 his business is listed as "grocery". Rulau notes that this piece sold for \$127.00 in a May 1993 auction by Kirtley.

Note: Listed in 1927 Dun. This firm was the successor to Harrison & Crane and Crane Brothers. B. R. Crane bought out his brother's interest in 1916, but did not change the name to B. R. Crane & Son until 1920. That same year, Crane bought the store of T. V. Ham in Williamsburg, MO and put his eldest son, Sam, in charge of its operation. Sam Crane ran that store until his death in 1963. His widow and son, Bill Crane, continued to run the store into the late 1970's.

The Mineola store was run by B. R. Crane until his death in 1939, after which his widow operated the store until 1956. The building has since been torn down.

Tokens were used in both stores into the late 1940's. Due to the large number of tokens made for Harrison & Crane, no new tokens were ordered for Crane Brothers, which continued to use the old Harrison & Crane tokens. The B. R. Crane & Son/Sons tokens were made sometime after 1920 and continued in use into the late 1940's. Missouri Journal of Numismatics Volume 4 (1979).

Note: Harrison & Crane, a firm composed of A. Y. Harrison (born 1873), B. R. Crane (born 1858), and W. C. Crane (born 1857), operated from about 1899 till 1911. In the latter year, B. R. Crane bought out Harrison's interest, and the firm became Crane Brothers. In 1916 B. R. Crane bought out his brother's interest in the firm, and in 1920 changed the name to B. R. Crane & Son.

The 1910 series was produced because the store was robbed of its tokens that year. The store afterwards refused to redeem any tokens without the date. Later a bag containing the stolen tokens was discovered under a bridge. Harrison & Crane then placed the old tokens into circulation again. Missouri Journal of Numismatics Volume 4 (1979).

4. 25¢ 1914 Ingle brass

Note: Listed in 1914 Bradstreet directory - grocery. These two values are the only ones recorded in Wagaman's catalog of Ingle system tokens. Wagaman says the tokens are dated 1914, but Michael Pfefferkorn's series of articles on Ingle system tokens of Missouri, says they are dated 1909. Seymour Brothers operated a grocery store from 1914 to 1916, a feed store in 1914, and a grocery and meat store during 1919-1921. The trade name of Henry Seymour was used for the grocery store in 1918. Frank Seymour ran a grocery and meat store during 1922-1923. S. M. Seymour ran it in 1924, and L. M. Seymour operated the store from 1926 to 1933. Missouri Journal of Numismatics Volume 14 (1989).

Note: Apparently issued by Isaac M. Haycraft, who lived in Poplar Bluff as early as 1908. In the 1910 census he is listed as a laborer at the Parker Plant (plantation?) and his wife, Lizzie, is listed as a grocery clerk. During 1909-1910, business directories list I. M. Haycraft (spelling error?) as operator of a grocery. In 1916 Lizzie Haycraft is listed as a grocer, and during 1918-1920, I. M. Haycraft is listed as operating a grocery. One wonders if he worked for his wife. Missouri Journal of Numismatics Volume 13 (1988).

Note: The Brashear family was in the general store business as early as 1879. A. L. Brashear & Son was the title of the company which flourished from 1889 to 1893. A. L. Brashear is recorded alone from 1898 to 1913. A. N. Brashear is listed as the owner of a saloon (1893), confectionery (1900-1916), and grocery (1914-1916). A. N. Brashear & Son ran a general store from 1918 till at least 1921. A. N. Brashear is listed alone again during 1927-1933. Apparently all the Brashear & Son tokens came from a hoard of about 60 pieces. 2. same in copper-nickel 19mm. Rulau MO-SJ6A

Note: Prior to the late 1970's, this was thought to be a Civil War token and was so listed in the Civil War token catalogs. The token is quite rare -- about 6 pieces known to exist -- and was selling for \$1,000 or more until research was published showing that Kenmuir didn't move to St. Joseph until the 1870's.

John Kenmuir was born in Lisburn, Ireland in 1831, the son of a watchmaker and jeweler. He emigrated to New York in 1850, then to Leavenworth City, Kansas in 1863, where he ran a watch and clock business on Delaware Street between 3rd and 4th. In 1873 he moved to St. Joseph, MO, locating on Felix Street between 5th and 6th. He was still in business there in 1882. His brother, James Kenmuir, was a jeweler and watchmaker at Kansas City.

In the mid 1970's five of the known pieces were located in collections in: 1) Minnesota, 2) California, 3) South Dakota, 4) New York, 5) New York (another collector).

Note: Dates known include 1836, 1839, 1841 and 1852.
2. same counterstamp on U.S. dimes. silver 18mm. Rulau MO 101.
Note: Dates known include 1828, 1834, 1838, and 1841. Rulau says a total of 7 specimens are known to exist.
3. same counterstamp on U.S. quarters. silver 25mm. Rulau MO 102.
Note: So far only one specimen, on an 1853 quarter, has been recorded.
4. same counterstamp on U.S. half dollars. silver 31mm.
Rulau MO 102B. Duffield 1437. Dates known include 1852 and 1853.
5. same counterstamp on Spanish-American 2 Reales coins. silver 27mm. Rulau MO 102D.
Note: Dates known include 1803 and 1807.

Note: Isaac B. Burbayge is listed in St. Louis directories from 1840 to 1859. He was a general agent and "intelligencer" -- a private detective, who probably also collected information on businesses, from which their credit rating could be determined. He was located on Vine street during the 1850's, when these counterstamped pieces were used. Since the pieces would be useless as advertising, they were probably used in some way as identification pieces. According to Eric P. Newman, who researched these pieces, his name is often misspelled in records as Burbayage or Burbayge or Burbbagge. Rulau values the counterstamp at \$150 on U.S. coins or \$185 on Spanish-American coins.

This token was struck with the die used for the Huckel, Burrows & Jennings Hard Times token of St. Louis, but the name HUCKEL was erased from the die. The result is an odd empty space on the left side of the obverse. Clearly this token was made sometime after 1836, when Huckel left the partnership. This token and the Huckel, Burrows & Jennings token are the earliest known Missouri tokens. See also J. S. Pease & Company.

Note: These two bus tokens appear to be printed on poker chips.

Note: Operating as early as 1946. Owned by Carl F. Trippe and his wife, Margaret. He apparently died sometime after 1952 and she continued to operate it until at least 1956. According to a later owner of this amusement park, the token was holed so that several could be put on a string. They were sold that way to prevent children from losing them. The amusement park was located at the north end of Chain of Rocks Park, on a bluff overlooking the Mississippi River and the Chain of Rocks Bridge. The Chain of Rocks refers to the shallowness of the river at that point, where rocks sometimes break the surface of the river. A canal had to be dug around this spot to allow ships to travel above and below St. Louis. In the spring of 1977 a portion of the amusement park was destroyed by fire. bimetal (brass outer ring; aluminum center) 24.5mm round

Note: This company takes its name from its Pine street address, which was in the DeSoto Building. As early as 1908 city directories list DeSoto Bowling Alleys (plural) at 708-710 Pine or 708-1/2 Pine (apparently upstairs) and at 5305 Vernon Avenue (under the name DeSoto-Vernon

7
Bowling Alley). The Olive Street address was not listed that year. All three addresses are listed from 1909 through 1915. In 1918 the Vernon Avenue address was a bowling alley operated by Giessow Brothers, but the other two address were still occupied by DeSoto Bowling Alleys. The Pine Street location was listed that year as DeSoto-Pine Bowling Alley, while the Olive Street location was liste as DeSoto-Olive Bowling Alley. Apparently Giessow Brothers bought the Vernon Avenue business.

According to the directories, the Vernon Avenue address was associated with the following individuals: Lloyd Lovell (1911); Clarence Tucker (1912); Giessow Brothers (1918). The Pine Street address was associated with Martin Kern (1912) and John A. Beresford (1912).

Given this information, the token must have been issued between 1909 and 1918. Missouri Journal of Numismatics Volume 18 (1993).

Note: Tony Faust, a Prussian immigrant, opened his first cafe in 1862, on the near south side between downtown and Soulard Market. In 1871 he moved his restaurant to Broadway and Elm, next to the Southern Hotel and across the street from the Olympic Theatre. Here his oyster bar and saloon became nationally famous. The 1877 fire which destroyed the Southern Hotel also destroyed Faust's restaurant, but he rebuilt at the same site and at the same time installed the first electric lights in St. Louis. In 1889 the restaurant was rebuilt at the same location and featured a ladies' entrance and a stand up bar which could accomodate 100 men at the same time. Tony Faust retired in 1902 and died in 1906. His restaurant closed in 1916 following the closing of the second Southern Hotel and the Olympic Theatre. Today the building and the street are gone. Note: John H. Fitzgibbon moved to St. Louis in 1846 and opened a daguerreotype studio on 4th Street between Market and Chestnut. By 1850 he was the best known photographer in the city. His gallery, located above Nicholson's Grocery (who also issued tokens). By 1858 his gallery filled 13 rooms and contained the largest collection of Indian photographs in the United States, in addition to

more than 1,000 photos of clients who had visited his studio. In 1854 he organized a tour to photograph southwest Missouri and northwest Arkansas. It is believed that he may also have issued the 1853 dated Fitzgibbon tokens, recorded under New York City as NY 263 and 264, for the Crystal Palace exhibition that year. He spent the civil war years in Vicksburg, Mississippi and later returned to St. Louis. In the 1870's he became a writer under the pen name Gibbon Fitz, and from 1877 published the St. Louis Practical Photographer. He died in 1882.

 copper-nickel 25.5mm. Rulau MO-SL14.

Note: First published in the Missouri Numismatic Society Journal Volume 1 (1976). A beautiful token, engraved by Charles Stubenrauch. The portrait is believed to be that of Mr. Kellersmann himself. Kellersmann appears in St. Louis directories as operator of a saloon at 1316 Howard in 1872, and at the southeast corner of 14th and Howard in 1873. He began in the grocery business as a partner in the firm of Kellersmann & Piestrup at 2400 Wash during 1869-1870. He was listed as a grocery at 1630 N. 14th (14th & Howard) during 1871-1885. He ran a grocery at 801 Morgan in 1879 and at other addresses after 1886. Missouri Journal of Numismatics Volume 14 (1989).

Note: E. Long was in the daguerrian (photography) business in St. Louis in the 1850's. The obverse of this token imitates a U.S. \$10 gold coin. The brass pieces, when new, must have looked like gold. The pieces with the padlock on the reverse are actually mules. That reverse belongs to the Foster & Parry tokens of Grand Rapids, Michigan. The 1997 edition of Rulau's Standard Catalog of U.S. Tokens values the copper and brass pieces at \$30 in Fine, \$45 in Extra Fine and \$60 Uncirculated. The white metal piece is valued at \$50 in Fine, \$100 in Extra Fine and \$200 Uncirculated.

2. same counterstamp without date on U.S. 1854 quarter.
silver 25mm. Rulau MO 115A.

Note: According to Rulau's Standard Catalog of United States Tokens, Edmund Mead (died 1870) was a silversmith in St. Louis, active circa 1846 to 1850. Since the second counterstamp is on a coin dated 1854, he must have been in operation till at least that year. In the 1830's Mead was a partner in the firm Mead & Adriance. It is unclear how these pieces were used. The 1846 dated piece might have marked the beginning of the business under his name alone.

1. 25¢ 1909 Ingle system

Note: Listed in 1914 Bradstreet directory - grocery and saloon. This is the only value for this merchant recorded in Wagaman's catalog of Ingle system tokens. William F. Niederluecke operated a grocery store at 1901 Montgomery from 1900 to 1926; at 1462 Warren from 1903 to 1905; and at 1460 Warren in 1918. He also operated a saloon at 1901 Montgomery (1902-1908) and at 2707 N. 19th street (1909-1918). Missouri Journal of Numismatics Volume 13 (1988).

2. same in silver plated brass, 28.5mm. Rulau HT 282A
3. same as preceding, but reverse reads " LIVES IN VAIN" instead of " Lives in Ruin".
brass (?) 28.5mm

Note: Though the Pease name and location appears on both sides of this token, it has always been attributed to New York. I suspect the attribution is due to the fact that, until recently, it would be worth more as a New York token than a Missouri token. Though I have not researched this piece, on the evidence of the token itself, I consider it a Missouri token. L. G. Irving operated in New York City at 19th Street near Third Avenue during 1844-1846. This would make it the third oldest Missouri token, after the Huckel, Burrows & Jennings and Burrows & Jennings tokens. It is believed the dies were cut by Bale & Smith, a New York City firm which operated from 1835 to 1848. Rulau prices the tokens at \$900 in Fine and \$1500 in Very Fine in the 1997 edition of his catalog.

5. a token similar to these but with the maker's name on the reverse is said to exist, but no description is available.

Note: Pevely Dairy was founded in the 1880's by Martin W. Kerckhoff. It began as a small butter delivery business to St. Louis from the family farm at Pevely, Missouri. Milk was later sold under the brand name Pevely Milk. In 1887 the Pevely Dairy Company was organized in St. Louis at 1312 S. 7th Street. The company was incorporated in 1903 and managed to secure the milk concession for the St. Louis Worlds Fair of 1903-1904. A new facility had to be built at 3301 Park Avenue to meet

the demand at the fair. In 1917 the company moved to its permanent headquarters at Grand and Chouteau Avenues. For a full century, the company was run by members of the Kerckhoff family. In 1989 the company was purchased by ABC Dairy Inc. a subsidiary of Prairie Farms Dairy, Inc. For an anonymous account of the company and its tokens (written by Michael Pfefferkorn), see Missouri Journal of Numismatics Volume 5 (1980).

13. same but struck in copper, 33mm. Rulau MO-SL30A.

Note: Joseph Schnaider (born Baden, Germany 1832) settled in St. Louis in 1854. In 1856 he established the Green Tree Brewery on Second Street, but moved in 1863 to Sidney Street. In 1865 Schnaider sold his interest in the Green Tree Brewery, and organized Schnaider's Brewery on Chouteau Avenue between Mississippi and Armstrong. Connected with the brewery was Schnaider's Garden, a German style pleasure garden which provided beer and entertainment, and became very successful. The whole business was incorporated in 1879 under the name Joseph Schnaider Brewing Company, but Schnaider died in 1881. The business was absorbed by the St. Louis Brewing Association in 1889, and closed a few years later. See article by Pfefferkorn (?). The Standard Catalog of United States Tokens dates the pictorial token to 1885, though it does not indicate on what basis. Rulau says MO-SL30A, struck in copper, is unique.

Note: Joel Swope began business in 1865 as Swope, Levy & Company. In 1868 a new partnership was formed, consisting of Joel and his brother, Isaac (a Civil War sutler), and known as Swope & Brother. In 1871 Joel Swope became sole proprietor, operating at various addresses over the years. He was at 311 N. 4th (the address on the tokens) from 1876 to 1880. About 1881 the firm became Swope & Brother again when another brother, Meier, joined Joel. Joel Swope died in 1901, but the business was continued by his brother who renamed it Swope Shoe Company in 1902. This firm is still in business today.

These tokens are part of a series of centennial tokens manufactured by Lingg & Company of Philadelphia for merchants in Maryland, New York, Pennsylvania, Virginia, and oddly, Missouri. There are similar tokens for Strouse & Brothers of Kansas City. Missouri Journal of Numismatics Volume 4 (1979).

1. Obv: WEHRENBURG (crowned "W") THEATRES
Rev: B F C ENTERPRISES INC. B F C VENDING NO CASH VALUE
brass 22mm round
2. same but nickel plated brass

Note: This is a local St. Louis chain of movie theaters, begun in 1906 by Fred Wehrenberg, who opened a nickelodeon next to his saloon and grocery at the corner of Cherokee and Jefferson streets. In the 1940's he built the first theater in St. Louis designed specifically for motion pictures on the same corner. In the late 1980's the chain had about a dozen theaters in the St. Louis area and was run by Fred Wehrenberg's grandson, Ron Krueger. The tokens listed here were in use in the mid 1980's.

Note: This general store is listed in directories 1914-1916. It is not listed in 1902 or 1918 (or later). The dollar is the only denomination for this merchant listed in Wagaman's catalog of Ingle system tokens. C. C. Carroll operated a general store from 1914 to 1916. The town was not listed in directories in 1913, nor was it listed after 1918. There was also a C. C. Carroll listed in Kansas City, but the first known token was dug up in Louisiana, MO - only 6 miles from Stark. Missouri Journal of Numismatics Volume 12 (1987).

Note: A 5¢ brass has been reported. This company was organized at Sullivan, Missouri on 21 June 1935 and consisted of 157 enrollees from Missouri. The company was sent to SCS-10 (a Soil Conservation Service camp under authority of U.S. Forest Service), known as Camp Union, and located near Union, Missouri. On 17 October 1939 the company was sent to SCS-38 at Pilot Grove, Missouri where it was disbanded on 30 June 1941. These tokens are sometimes attributed to Centaur, MO which was a railroad station in St. Louis county near the Franklin county line. The unit is said to have operated at Babler State Park in St. Louis county (the nearest post office being Centaur). Missouri Journal of Numismatics Volume 3 (1978). See also Paris, MO and Troy, MO.

Note: J. M. Dye & Sons may have been a successor to F. P. Dye & Brother Mercantile Company. The company is listed as J. M. Dye, a grocery and dry goods store in 1924. J. M. Dye and Sons operated a grocery and dry goods store from 1926 to 1934. From 1929 to 1934 the business is listed as women's wear. In 1938 J. F. Dye operated a Women's wear and dry goods store here. Joe M. Dye Jr. is recorded as the proprietor of a grocery and hardware store from 1938 to 1945; a dealer in poultry from 1938 to 1945; a feed store dealer during 1944-1945; and a produce dealer from 1947 to 1949.

In 1926 J. M. Dye & Sons ordered 3,000 tokens from the Ingle-Schierloh Company as follows: 5¢ 300 pieces; 10¢ 300 pieces; 25¢ 300 pieces; 50¢ 300 pieces; \$1.00 600 pieces; \$5.00 100 pieces; \$10 100 pieces. All of these were nickel plated brass. The \$5 and \$10 tokens were later returned to the manufacturer. Supplementary orders were for \$5.00 in brass - 200 pieces; 5¢ and 10¢ in nickel plated brass - 300 pieces each; 25¢ nickel plated brass - 100 pieces; and another \$5.00 in brass - 100 pieces. This company operated a general store from 1908 to 1921. According to an article in the February 1972 TAMS Journal, the Ingle company struck 3,000 tokens for this firm in 1919. But according to company records, an order was received on 29 November 1919 for \$140 (in tokens?) and another order on 3 January 1919 for 2,000 tokens. The company became the Koenig - Buescher Mercantile Company in 1922 and operated under that name until 1947. Missouri Journal of Numismatics Volume 13 (1988).

Note: This facility was established during World War II as Sedalia Army Air Field, for the training of glider pilots and paratroopers. It was closed in 1947, but reopened in 1951 as a Strategic Air Command (SAC) bomber base. Its B-47 bombers began arriving in 1954. The base was renamed in 1955 in honor of Lt. George A. Whiteman of Sedalia, Missouri, who was one of the first Americans killed in World War II. During the December 1941 Japanese attack on Pearl Harbor, Hawaii, Whiteman's fighter plane was shot down as he tried to respond to the attack.

In 1963 the 351st Strategic Missile Wing was activated at Whiteman AFB. This unit manned and controlled the 150 nuclear missile sites scattered around western Missouri and eastern Kansas. The b-47's were retired in the 1960's, and by the late 1980's the base was home to 36 Army National Guard helicopters and four Air Force helicopters. In 1987 the Air Force announced that a unit of Stealth bombers would be based at Whiteman. In the 1990's Stealth bombers from Whiteman flew bombing missions in Yugoslavia. The base is located near the small town of Knob Noster, nine miles east of Warrensburg and 18 miles west of Sedalia.

Note: About 1915 L. C. Boehme and Adolph Thurm purchased one of Wittenberg's two general stores from its owner, Otto B. Lueders. The partnership also operated a boat landing and warehouse in Mississippi River town. About 1923 the partnership was dissolved. Boehme took over the general store business and Thurm took over the boat landing and warehouse. After L. C. Boehme died on 7 November 1940, his widow and youngest daughter, Bernice, operated the store until it closed in 1942. The annual flooding of the Mississippi eventually destroyed the town. In 1920 its population was 269, but by the 1970 census, the population had dwindled to only 9 people. The flood of 1943 destroyed the contents of the store, and shortly afterward, the building was torn down. Although the partnership had ended in the early 1920's, the tokens continued in use until the store closed two decades later. Missouri Journal of Numismatics Volume 4 (1979).
